SOUDABOND *EASY*

Description:

SOUDABOND EASY is a ready-to-use, single component, self-expanding polyurethane adhesive for clean, efficient and economical permanent bonding of insulation panels, building boards and plasterboard in building and construction.

Characteristics:

- Remains flexible, does not become brittle
- Fast curing, work can continue after 1 hour
- Cuts working time by up to 30%
- Excellent initial bond
- Great thermal properties
- Does not age or rot, mould & mildew resistant
- Can be trimmed, sanded and painted

Applications:

- Clean, efficient and economical permanent bonding of insulation panels.
- Suitable for bonding polystyrene (EPS + XPS), polyurethane (PUR/PIR) and phenol resin foam based insulation panels for flat roofs, perimeters, facades, insulation/drain elements, cellar ceilings, internal insulation, etc.
- Suitable for bonding plasterboard and timber building boards
- Suitable for bonding non-load bearing walls from aerated concrete (Hebel)
- Ideal for bonding aerated concrete (Hebel) floor panels to timber joists.
- Fills cavities between individual thermal insulation panels.
